REIMAGINING ORPHAN CARE

# Letter From the Board:

During these unprecedented times, as we transition from a world held captive by a pandemic, to one now facing the knock-on effects of a war in Europe that has introduced large-scale food and energy insecurity around the globe, mass migration, global inflation, and many other secondary consequences of such a major conflict, we would like to extend a heartfelt thank you to all our dedicated and generous supporters who have continued to volunteer their time, resources, and funds to OTI projects, despite these being such difficult times that affect everyone in some capacity or another. Whether you have made a single donation, a regular monthly gift, hosted or attended a fundraising event, supported us through a corporate partnership, or volunteered your skills by whichever means you could, you are amazing, and we cannot thank you enough.

2022 was an exciting year for ONETrack International. Our team has been busy identifying even more ways to promote our innovative orphan-care solutions and better ways to serve those in need; we are currently seeing some major successes in new consulting programs that we have been developing to help us share our techniques with local community-based organizations looking to restructure or build on their current programs, and also we have been expanding on capacity building projects that support small charities with a variety of resources that help them to grow by reinforcing their missions. We look forward to sharing some of these new endeavors with you throughout the year.

We are confident that working closely together with all of our global team, and with your ongoing support, we will be able to thrive in the ever-changing world and we look forward to the future with a sense of hope and optimism. We are so very blessed to have all your support during these times of general uncertainty and we promise to continue fighting to keep families together no matter what obstacles the world puts in front of us. Thank you again for all that you all do for the orphaned children of this world. We wish you an amazing and safe 2023.

  
Shaun Bamforth  
Chief Executive Officer

# OTI UPDATE:

## What are ONETrack International's core values?

### **1. INNOVATION:** Understand the community and think outside the box with limited resources.

OTI provides creative solutions to the Global Orphan Crisis, a complex international problem. We fight to reduce reliance on traditional orphanages by working alongside local communities and understanding local cultures to help orphaned youth grow up in a strong, positive, family environment.

### **2. ACCOUNTABILITY:** Dedication and passion to make sure we are doing this right.

OTI is dedicated to and passionate about ensuring we are taking the right steps to ending the orphan crisis. We adhere to and promote international laws and standards. We are excited and eager to share our methods and lessons learned to help others fight to end the Global Orphan Crisis as well.

### **3. INTEGRITY:** Professionalism and competency in tackling the Global Orphan Crisis.

OTI is devoted to professionalism and competency. We vow to constantly learn and grow as an organization. We take the lessons learned in our evaluations and research to grow in a way that best supports the youth, families, and communities in our programs.

### **4. AWARENESS:** Cultural understanding with strong ties to the community. Thoughtful on how best work within the current systems.

OTI is committed to the communities in which we work by trusting their knowledge of their culture. We vow to honor and understand the uniqueness of each community. We commit to working alongside our partners and the community leaders so that orphaned children have the best chance at a traditional childhood.

# TACKLING ORPHAN CRISIS' ROOT CAUSES SINCE 2010

## FUTURE OUTLOOK:

ONETrack International's mission is to build awareness of the Global Orphan Crisis and promote innovative orphan-care solutions by encouraging our Transition to Home approach to family reunification that is tailored to the culture and communities in which we work. As we look toward the future, ONETrack will start placing more focus on the 'promote' aspect of our mission.

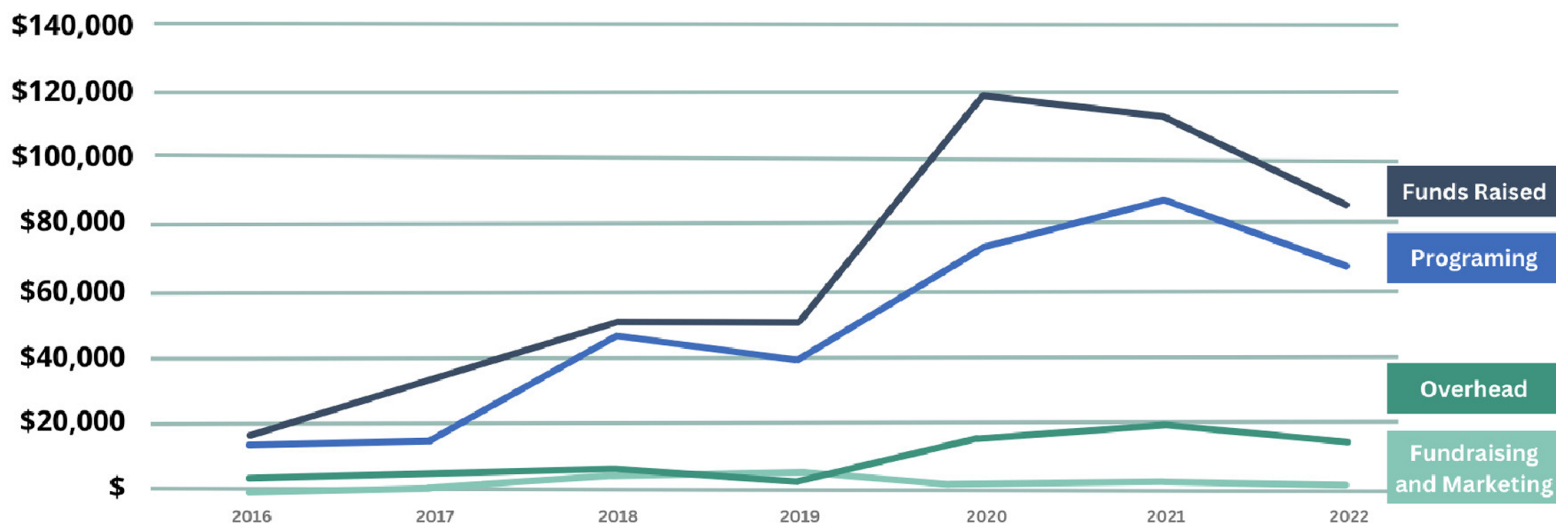

With 150 million orphaned children around the world, we are well aware that we will not be able to welcome all of them into our programs, and so it is evident that we can have a larger global impact if we place more emphasis on helping community-based organizations restructure their own systems and processes to better reflect more modern orphan-care techniques, and also by providing capacity building support that assists organizations in things like admin, media, data measurement, fundraising, and things of this nature, which will allow them to focus on their own programs, give them access to resources that they might not have had otherwise, and provide tools and expertise that lead to greater growth.

We have already started experimenting with some of these tactics and are excited to share more as they become ingrained in our overall support structure.

# SUMMARY

\*2010-2015 raised <\$10,000

## Why We Do It?

It is important to realize what the true problem of the Global Orphan Crisis is: it is not orphans – it is the mishandling of the response by the global community and the negligence of the commitment to finding real solutions to better serving orphaned children.

# OUR VISION

There are currently an estimated 150 million children worldwide who have been orphaned by a variety of tragic circumstances.

We envision a world in which the Global Orphan Crisis is better managed and all orphaned children are raised in a family environment with proper education and healthcare.
